DECISION SNAPSHOT

Why it may or may not fit

WHY IT STANDS OUT

Free plan with unlimited data plus transparent open-source apps and paid privacy features.

WHAT TO WATCH

Free users are restricted to one device at a time, randomly selected free locations, and fewer premium capabilities.

WISETECHLIST TAKE

The short verdict

Proton VPN is the strongest free-plan starting point in this shortlist for users who need unlimited data without ads. Paying makes sense for deliberate server selection, multiple devices, and premium features; free and paid plans are not identical.
