Free plan	Yes
Free trial	No
Difficulty	Easy
Last verified	Oct 2026
Best for	Marketing Team, Remote Team, Sales Team, Small Business,

KEY TAKEAWAYS

Strength and limitation

KEY STRENGTH

Strong real-time transcription and searchable meeting history with an approachable workflow for individuals and small teams.

MAIN LIMITATION

The free plan has transcription-minute and per-meeting limits, while deeper admin and higher-capacity features require paid plans.

WISETECHLIST VERDICT

Should you use Otter.ai?

Otter.ai is a strong choice when the main job is turning meetings and conversations into searchable transcripts, summaries, and action items. It is particularly easy to adopt for users who value live transcription, but teams that need deeper post-meeting automation or advanced revenue intelligence may prefer a more workflow-heavy platform.

USE CASES

What can you use Otter.ai for?

- Meeting transcription
- Interview notes

- Customer calls
- Internal meetings
- Lecture and research notes
- Searchable conversation archive

PROS AND CONS

What to like and what to consider

WHAT WE LIKE

- Live transcription
- Speaker identification
- Searchable transcripts
- AI meeting summaries
- Calendar and meeting-platform integrations
- Mobile and desktop apps

WHAT TO CONSIDER

- Free plan limited to 300 transcription minutes/month
- Free meetings have shorter duration limits
- Advanced team administration requires higher tiers
- Less workflow-oriented than some meeting intelligence platforms

PRACTICAL FIT

How Otter.ai fits a small business workflow

WHAT IT IS

Otter.ai is an AI meeting and transcription platform that can capture conversations, transcribe them in real time, identify speakers, create summaries and action items, and make past meetings searchable. It can automatically join supported meetings through calendar connections and also supports mobile and desktop recording workflows.

WHERE IT FITS

Otter.ai fits a small business workflow when meetings, interviews, and customer conversations need to become searchable records without requiring people to take detailed notes manually. It is especially useful for teams that want live transcription during calls and a simple archive they can search later.

WHEN IT MAY NOT FIT

Otter.ai may not be the right fit if your business needs meeting data to drive sophisticated CRM updates, sales coaching, revenue forecasting, or complex workflow automation. In those cases, a more specialized conversation-intelligence platform may provide more value.

DECISION GUIDE

Who should choose it?

GOOD FIT

Choose Otter.ai if real-time transcription, searchable conversation history, and easy meeting capture are more important than complex post-meeting automation.

SKIP IF

Skip Otter.ai if your main priority is advanced CRM field automation, sales coaching, or multi-meeting revenue intelligence rather than transcription and notes.
